Re: Instructions issued by the Minister for Education during his tour in the District on the 30th and 31st of July 1942

CONSTRUCTION OF A MUNICIPAL HIGH SCHOOL AT B I R U R.

OFFICE OF THE MINISTER FOR EDUCATION
Date 31 8 42
No 273

Dear Sir,

1) With reference to the special instructions given regarding the above, when the Minister for Education was pleased to lay the foundation stone for the New Municipal High School, at Birur, I am herein enclosing copies of :-

1 My letter No 328 dated the 21st August 1942 to the Superintending Engineer, Shimoga Circle, Shimoga,

2 My letter No. 157 dated 21st August 42, to the Deputy Commissioner, Kadur District, Chikmagalur, and

3 My letter No 347 dated the 21st August to the Director of Public Instructions in Mysore, Bangalore,

and

i. Plan (i) showing the approved location of the new Birur High School, (Site plan);

ii Plan (ii): showing the line diagram of the complete proposals for the High School, when fully developed,

iii Plan (iii) showing the design for the new High School to be built up at once as a stage, even during the current year, and

iv Plan (iv) showing the same with the alternative terraced roof as per instructions of the Minister,

for favor of your information.

2) Directly the final plans are sent up to this office by the Government Architect, through the Chief Engineer

of Mysore, in consultation with the Director of public Instructions, necessary further action will be taken by me.

4) I request you kindly bring this to the notice of the Minister for Education

Thanking you,

With regards,
Yours sincerely,
Sd/- G. Ramanujam

The Executive Engineer, Kadur Dn has forwarded for the information of the Minister for Education copies of his letter to the Superintending Engineer, the Dy Commr Kadur Dt and the Dept's Plans for the Construction of a building for the ~~proposed~~ MI High School at Koteur. He has stated that the final designs to be adopted will have to be arranged by the Govt Architect in Consultation with the Dept's. No action seems necessary on this, as this is only for information. As there is no question of the payment of a grant & the building has to be constructed by the Municipal Council, this is

Re: Construction of a Municipal High School at Birur Notes of instructions issued by the Minister for Education during his tour on the 30th and 31st of July 1942, in Kadur District

---

With reference to the above, I have the honor to state that the Minister for Education during his recent tour of inspections in this District was pleased to lay the foundation stone for the new Birur High School, on the 31st July, in the site selected for the purpose, as per previous instructions of the then Second Member of Council during his inspections in November 1940-

The Deputy Commissioner, Kadur District, in his memo No A3-2602/39 dated the 5th March 1940 (copy enclosed for favor of reference stated that according to letter No E.2690/Ed 105-39-2 dated the 16th February 1940 from the General Secretary to Government, the opening of a Government High School at the place was not possible, but the question of organising a Municipal High School could be investigated and that the Sub Divisional Officer, Tarikere, was looking into this aspect of the Question

Later the Deputy Commissioner, in his No A3-C 3211/40-41 dated the 22nd July 1942 (copy enclosed for favor of reference) requested this office to prepare suitable plans, and estimates for the construction of this High School, and to furnish a site plan as per instructions issued by the Second Member of Council during his tour in this District, and stated that a sum of Rs 9,000/- was available for the purpose

With reference to this requisition of the Deputy Commissioner, as also for presenting a suitable design for the new Municipal High School, on the occasion of the ceremony of laying the Foundation stone, by the Minister for Education on the 31st July, the site plan mentioned above, (Plan No i), as also plans Nos (ii) and (iii) were prepared in this office, and submitted to the Minister for Education on the 31st of July 1942

This design (Plan No iii) has been developed on the design

of

of the Bhadravathi High School, which was obtained through the Deputy Commissioner, Kadur District, as per instructions of the then Second Member of Council, for adoption with reference to this High School

On subsequent instructions orally given by the then Second Member of Council, the designs adopted for the Holenarasipur High School were also obtained with a view to considering whether that design would not prove to be cheaper for adoption with reference to this High School.

Copies of these designs are herewith submitted in original for favor of reference and kind return

The cost of the Bhadravathi High School was estimated then at about Rs 20,000/- at about Rs 3/12/- per square foot of plinth area of nearly 5,780 square feet, and the cost of the Holenarasipur High School was found to be Rs 27,000/- calculated on the plinth area of 6 679 square feet

The present design (No iii) was developed on the assumption that about 45 to 60 students would have to be accommodated finally, and that the school could begin in its new habitation with only an accommodation of four rooms The Bhadravathi High School design has six rooms of about 20'x30' and the design for the Birur High School now prepared provides for only four rooms of 30'x18',

The instructions of the Minister for Education regarding the design submitted to him on 31st July 1942, were, that the accommodation may not be enough for the fully developed High School, and that a laboratory may be required immediately in addition, and also that a terraced building would be preferable

Following these instructions, Plan (ii), showing the proposals for the complete accommodation that would be required for a fully developed high school (line diagram only submitted), and plan (iv) showing the terraced roof design as an alternative to the tiled design plan (No iii), have also been prepared and submitted herewith

As per instructions of the Minister for Education in addition to the construction of the four rooms as per either plan (iii), or (iv), the construction of the laboratory shown in plan (ii) may also be considered as being urgent, and this block may be taken up for construction during this year only

Since the Municipal High School, which was opened by the Minister for Education on the 31st July, and has been operating now in its temporary habitation, and since this case for the new Municipal High School was ordered to be expedited, I have herewith submitted the case separately for favor of your immediate orders

All the above plans may be kindly considered as merely preliminary proposals made by this office in pursuance of previous instructions given on the subject The final designs to be adopted will have to be kindly arranged to be given by the Government Architect in consultation with the Director of Public Instruction, probably duly approved also by the Minister for Education

Since the New Municipal High School buildings were ordered to be commenced even during this year, I request the favor of the disposal of this case being considered as emergent

Plan No (iii) without the laboratory is seen to cost Rs 18,800/- at the rate of Rs 4/- per square foot on the plinth area, this rate of Rs 4/- per square foot being assumed due to the present War conditions

Similarly, the designs for the terraced roof without the laboratory will cost Rs 28,550/- at the rate of Rs 5/- per square foot

The original designs of the Bhadravathi and Holenarasipur High Schools may kindly be returned after the disposal of the case

The

The Deputy Commissioner, Kadur District, and the Director of Public Instructions in Mysore, have also been duly addressed in the matter, copies of which letters are herein enclosed for favor of information.

EXECUTIVE ENGINEER.
KADUR DIVISION

Letter No 157 dated the 21st August 1942, from the Executive Engineer, Kadur Division, Chikmagalur, to the Deputy Commissioner, Kadur District, Chikmagalur

---

Re: Construction of a Municipal High School at Birur Notes of instructions issued by the Minister for Education during his tour on the 30th and 31st of July 1942, in Kadur District

---

With reference to correspondence ending with your letter No A3-C 3211/40-41 dated the 22nd July 1942, and with reference to subsequent instructions issued by the Minister for Education on the 31st July 1942, on the above subject, when he was pleased to lay the foundation stone for the New Birur High School, I have the honor to enclose herewith a copy of my letter No 328 dated the 21st August 1942, to the Superintending Engineer, Shimoga Circle, for favor of your information and further necessary action

I am also enclosing herein four plans:-

Plan (i):- showing the approved location of the new Birur High School, (site plan)

Plan (ii):- showing the line diagram of the complete proposals for the High School, when fully developed;

Plan (iii):- showing the design for the new High School to be built up at once as a first stage, even during the current year, and

Plan (iv):- showing the same with the alternative terraced roof as per instructions of the Minister

If the four class rooms proposed were considered inadequate, the laboratory shown in Plan (ii) to the left of the building could also be taken up during the current year only, as suggested in my letter to the Superintending Engineer, referred to above

The cost of the tiled roof design calculated on the plinth area basis, at Rs 4/- per Square foot will be Rs 18,800/- and the cost of the terraced roof building will be Rs 23,550/- at Rs 5/- per square foot, these rates being assumed to suit the present War conditions

These designs as stated in my letter to the Superintending Engineer, Shimoga Circle, cited above, are to be considered as preliminary proposals of this office only, and the final designs etc will have to be prepared by the Government Architect in consultation

with
